DETAILED ACTION

1. Claims 70, 73-80, and 82-90 are allowed.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art fails to teach a plurality of multiplexers, each multiplexer receiving a bit of the input data signal and its inverse from an interface, wherein the multiplexers select either the input bit or its inverse to create an altered video signal. The multiplexers are part of a field programmable gate array. The claims further add steps to scramble the data bits by applying the data to a plurality of multiplexers and then selecting a single bit from each multiplexer to create a scrambled video signal. The multiplexers work at the hardware level to perform altering/scrambling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given by Georgann Grunebach (Reg. No. 33,179) on March 30, 2006.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brandon S. Hoffman whose telephone number is 571-272-3863. The examiner can normally be reached on M-F 8:30 - 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz R. Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
